

MODULAR CALCAR PLANER

The **Modular Calcar Planer** provides safe, effective and accurate cutting instrument for the removal of hard calcar bone.

The patented design provides easy disassembly and blade change in a matter of seconds. The Calcar Wrench allows quick removal of instruments and intra-operative blade change.

Surgeons will appreciate a consistent sharp blade producing repeatable, accurate cuts. The disposable blade provides sharp cuts for easier procedure.

Our modular blade reduces overall costs by eliminating the need to replace the handle.
